Walkthrough

THE PEDDLER is Hull #7 of the award-winning Dreamline 26-meter series from DL Yachts of Italy. Each yacht is built to order, and all interiors are bespoke with the owners working directly with the design team. Fabrics, Leathers, Stones, Woods, and Furniture are all selected by each individual yacht owner making the interior of every Dreamline unique. **THE PEDDLER** is currently the only Dreamline built for a North American client with 60 cycle electrical system. The yacht has a shore power converter twin 32 kW generators, 200 liters per hour water maker, and a tropical air conditioning system. The yacht was delivered in July 2019 to her original owner, and the current owner purchased the yacht in 2021 and during 2025 invested \$1.2 million in a mechanical and cosmetic refit.

THE PEDDLER exterior has several different areas for relaxing, dining, and sunbathing. All exterior decks and stairs are covered in teak. On the aft deck there is a built-in settee and loose seating for eight guests to dine and relax. Overhead of the aft dining table area you will notice air conditioning vents to keep you and your guests cool on warm days. Above and aft of the settee is a large sunbed for lounging and enjoying the sun. From the aft deck there is a staircase that leads up to the sundeck and auto electric doors to enter the main salon. The captain also has engine and thruster controls located under a small hatch on the aft deck for docking. The side decks are wide with high bulwarks for ease of movement and safety. There are port and starboard staircases that lead down to the hydraulic swim platform, tender and water toy garage. The yacht is equipped with a hydraulic swim step and a passerelle for ease of boarding from the water or the dock.

Entering **THE PEDDLER** through the electrically operated doors into the main salon from the aft deck you will immediately notice the tasteful elegance of the interior. Gorgeous Italian stitched leather and exquisite woods cover the cabinets, walls and ceilings. Hardwood planking is used on the floating floors and low foot traffic areas have silk carpeting bordered with Italian marble. All loose furniture is designer sourced and chosen by the owner. The salon has a comfortable barrel chair and an L-shaped leather and fabric sofa by Fendi Casa of Italy. The main dining table and chairs for eight are from Costantini Pietro of Italy. All the dinnerware and glassware are stored in hidden cabinets in the dining area as well as a custom wine cooler, icemaker and small refrigerator. The window blinds all open and close electrically using strategically placed touch pads or the supplied Apple iPad. The sound system, curved TV, and lights can also be controlled by the iPad. There are two iPads that come with the yacht, one for the main salon, and one for the owner's stateroom. You will appreciate the relaxing ambience, the understated elegance, and comfortable warmth of the interior décor **THE PEDDLER** emits.

Moving forward from the salon/dining area on the starboard side, there is the powder room / day head with a marble sink basin, mirror and toilet with U-spa seat. To the port side is the entrance to the galley that is equipped with everything necessary for the chef to prepare appetizers, a multicourse meal, or snacks. There is a port side door located in the galley for the crew to enter and exit the yacht. This allows ease of bringing aboard provisions as well as private entrance to the crew lounge and crew cabins below. The crew area has a dinette, crew mess, two crew staterooms for up to four and two crew heads. The laundry is also located in this area with a Miele washing machine and a Miele clothes dryer.

Forward of the galley entrance are two staircases, one leading up to the pilothouse and another leading down to the guest accommodations. There is a foyer with a starboard side entrance door and forward is the entrance to the owner's stateroom.

THE PEDDLER accommodations consist of four staterooms for up to eight guests. The owner's stateroom is forward on the main deck and is a sight to behold with a 180-degree view from the windows. Above the bed with custom mattress are overhead skylights and all windows in the owner stateroom have electrically operated blinds. The TV electrically raises and lowers in the cabinet forward of the bed and, as in the main salon, the

blinds, lights, sound system and TV can be controlled by touch pads or the second iPad for the owner's cabin. There is a swiveling leather chair with a small computer or iPad table. Another outstanding feature of the owner's cabin is an electrically operated private side door that allows the owners to access an exterior private lounge area that can be used for sunbathing, dining or relaxing. The owner bath has dual marble sinks and marble shower with built in bench, wand shower head and overhead rainfall shower. There are ample hanging lockers, drawers, and cabinets for storage of clothing and personal items as well as a safe for valuables. The décor theme of understated elegance continues in the owner stateroom with fine hand stitched Italian leathers, beautiful Italian marbles, and exotic hardwood and wood veneers on the cabinets, doors, ceilings and floors.

Moving aft from the owner state room we can descend the staircase to the lower deck where you will find the full beam mid-ship VIP that is often referred to as a second owner state room. Built in settee, desk or vanity with a leather chair, safe for valuables and abundant built in cabinets and storage drawers will be appreciated by your VIP guests. Forward of the VIP there are two additional guest state rooms, to port has a queen-sized bed and to starboard are two single beds. All guest staterooms are ensuite with beautiful marble finishes. All guest staterooms have TVs and sound systems. Every guest bath, Owner, VIP, Port and Starboard Staterooms and main deck half bath is equipped with a toilet with U-spa seats that have a built-in bidet. All your guests will be surrounded by the same understated elegance and comfort and materials found throughout **THE PEDDLER** interior.

Leaving the guest accommodation area on the lower deck, we move up the staircase and take a few steps aft to ascend the staircase to the Pilothouse area. There is a single electrically controlled captain chair, touch screen for all ship systems, SIMRAD display screens for Chart Plotter, GPS, Radar, Sonar, Autopilot. VHF, CMC Electric Fin Stabilizer controls at anchor and underway, Humphree Interceptor Trim Tab controls and the bow and stern thrusters. Moving up another staircase from the pilothouse is the Sun Deck area and upper helm.

The sundeck has loads of seating and relaxing options with a wet bar and bar stools, dining table, jetted hot tub with built in heater, built in sunbed, free standing sun loungers and a hardtop that electronically opens and closes at the touch of a button. There is a large alfresco dining table with a U-shaped settee and four chairs for as many as ten guests. Forward to port is another settee for two and to starboard, the upper helm area with two pilot seats and an electrically raised pod for the navigation display screens. Here, the captain has all the controls and navigational aids that are found in the pilothouse plus a joystick controller of the main motors and thrusters. Aft of the sundeck is a staircase that descends to the aft deck area.

THE PEDDLER with a wide beam and overall length feels and is large for a 26-meter motor yacht with an interior volume of 145 GT. The hull features a hybrid design by Arrabito Naval Architects. It is called the Lama Wave-less with principal benefits of lower resistance for better fuel economy, low bow lift when accelerating to planning speeds and a smooth ride at sea. At 10 knots expect a range of 1400 nautical miles and a top speed of 24 knots.

If you are considering another builder of motor yachts from 24 to 28 meters, you owe it to yourself to consider **THE PEDDLER** as your next yacht. You will be impressed.

Equipment List

MAN D2862LE436 Diesels (2)

ZF Transmissions

Air Conditioning (Tropical Upgrade)
Two Touchscreen Control Displays for all ship systems (Flybridge & Pilothouse)
Autopilot Control (Flybridge & Pilothouse)
Radar Control (Flybridge & Pilothouse)
